

ARPAC

A DURAVANT COMPANY

**HORIZONTAL
SHRINK WRAPPING
SOLUTIONS**

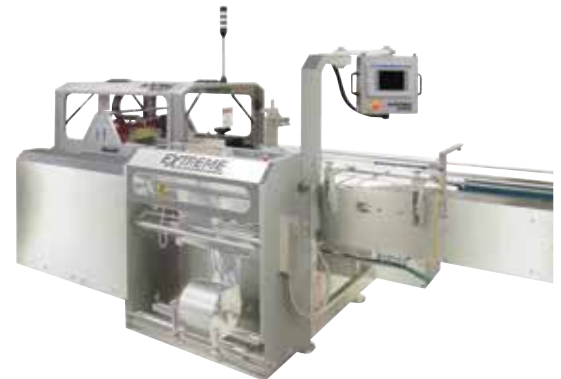

THE NEW STANDARD FOR PERFORMANCE AND RELIABILITY IN PIZZA PACKAGING

- 🍕 Precise film seal
- 🍕 Lowest waste
- 🍕 Maximum versatility
- 🍕 Unrivaled machine access

The Extreme Series horizontal shrink wrap system comes equipped with the NextGen side seal and ARPAC engineered cross seal technology built specifically for the pizza environment.

EXTREME

Versatility

Maximum product range • customized product feeds • plug and play infeed systems • exceptionally adjustable

Lowest cost of ownership

less maintenance • less film consumption • lower operational cost

Reliable and long lasting

direct drives for reliable, smooth, and quiet motion • rugged design for 24/7 operation • heavy duty welded frame construction

High performance

continuous-motion medium to high speeds • accurate, repeatable shrink seals • efficient film usage and minimal waste • state-of-the-art servo motion

Easy to use and maintain

large gull wing doors on both sides provide easy access for maintenance • easy to use touchscreen operator panel on swivel mount for quick reposition of control
